

Stockhausen Concerts and Courses Kürten 2022

from July 9th to 17th

“Sometimes music vibrates beyond the clouds, and we can no longer hear its echo. Very rarely is it truly infinite; then it makes us forget the Earth. The great masters sense that they have one last thing to say, and that life is coming to an end –. But their music stays behind with humanity as a legacy, and we must gratefully preserve this precious gem, and endeavour in the spirit of the composer to grow deeper and deeper into his works and let them worthily arise again.”

K. Stockhausen, July 20th 1948

For the 19th time, the music of Karlheinz Stockhausen will be the focal point of nine days of concerts and interpretation courses. Composers, interpreters, musicologists, sound projectionists and music lovers are cordially invited to attend the *Stockhausen Concerts and Courses Kürten 2022*.

Stockhausen’s motto for the 2022 courses is

LEARNING CAN BE CONTAGIOUS.

INORI-gestures (Instructor: **Alain Louafi**)

The course takes place each morning before the master classes and other events of the courses and is open to all interested participants.

Sound projection (Instructors: Kathinka Pasveer, sound projectionist; Reinhard Klose, sound engineer)

In the context of the daily rehearsals and concerts with Stockhausen’s closest technical collaborators, anyone who is interested in learning more about the sound projection in performances of Stockhausens electronic, vocal and instrumental works can experience, first-hand, which aspects must be addressed and how they are can be solved from the sound engineering point of view.

In addition to the daily concerts, open rehearsals, master classes, and concert introductions, there will be seminars, lectures and workshops on the music of Stockhausen given by international Stockhausen experts. These events are designed to be equally accessible to those already familiar with Stockhausen’s music and to those who have had very little or no exposure to his music but who are curious to know more.

Rudolf Frisius (Germany) 4 lectures:

- 1 *SIRIUS: The path from the early serial music to the integrative electronic music with melodies, voices and instruments.*
